HORSE ROUTE OF THE FARMHOUSE OF PERACALÇ

Today, the horse is not present in our daily lives, it is no longer a tool of work as in the past, but many people choose to spend their free time with these animals. It reinsuits, a magnificent, noble and very sensitive animal, which at the same time makes us reconnect with life in the open air, nature, silence, space and all of sensations that urban life and big cities deny us. On horseback one discovers the own country, the territory and the rural world, riding by ancient ways and trails, galloping through forests and meadows, climbing mountains and sharing the effort of our horse and companion.

From **Cavalls Wakan**, in the village of **Montcortès** at **Pallars Sobirà** district, in the province of **Lleida**, we offer you a circular route on horseback for 2 days, to the **Masia de Peracalç** and return the next day to **Montcortès**. We will cross a territory with a wide diversity of natural (geological, paleontological, astronomical and biological) and cultural resources (archaeological, architectural, gastronomic, and intangible heritage) with international recognition, in an untamed environment of transition between the **Pre-Pyrenees** and the **Pyrenees**, with ravines, gorges, a varied flora and fauna and a culture to discover...

We will ride along the border between the districts of **Pallars Sobirà** and **Pallars Jussà**, province of **Lleida**, always within the geographical scope of the **UNESCO World Geopark Conca de Tremp-Montsec**. During the horseback ride, we will pass through several protected natural areas, such as the **Espai Natural Collegats-Queralt** and the **Espai Natural Montcortès Lake**.

If you are attracted to horses and want to know about them better by discovering other landscapes, other ways of living, and becoming aware of our link with the land, this is your opportunity. Riding a horse is the beginning of an adventure, which will also lead us to a personal discovery; horses tune in very deeply with our interior, connect us with the universe and help us to be better people.

The **Route of La Masia de Peracalç** is always done in small groups, with a maximum of 4 people, in order to offer personalized attention, adapting to your pace and level with maximum security.

During the route with the horse, we advise you to bring suitable clothes to the time of year and to the weather. Long pants, comfortable and covered shoes and sun protection in summer, to fully enjoy nature in its purest state and share an unforgettable experience with our horses.

It is also useful to bring: mobile and / or camera, rain jacket and / or sweater if it was blowing wind or drizzle and anything else that you think you may need during the day, everything will be placed in the saddlebags of your horse, always with the weight well distributed on both flanks of the horse.

The rest of your luggage will be in the assistance car and we will find it with the first day's food, in case you want to take or leave something, and then at nightfall when we arrive at the accommodation in the **Masia de Peracalç**. The second day, once we leave the farmhouse, you will no longer have the luggage until we return to **Cavalls Wakan**, in **Montcortès**.
